

IN THE SPECIFICATION

Revise line 21 of page 4 as shown in the following paragraph:

Illustrated in Figure 1 is a flow control valve 2 which includes a valve body 10 having a bowl portion 12 and a cap portion 14, which in use is mounted to the bowl portion 12 with an O-ring seal 13 to seal the under side of flange 130 of cap portion 14 with a sealing rim 132 at the top of the bowl portion 12. The cap portion 14 will, in use, hold a diaphragm assembly 16 to the body portion 12. The valve 2 is controlled by a solenoid operated plunger assembly 18 which includes a plunger 20, compression spring ~~22~~ 28 and a retaining clip 24. These components are well known in the art and need not to be described herein in any detail.
